

Descriptive Document

Item #1

Description: Text Logo / Image Logo (interchangeable)

Font: Arial 40px

Color: Black

Alignment: Center

Media: N/A

Interactivity: N/A

Item #2

Description: Nav bar

Font: Arial 20px

Color: Black, Bold

Alignment: Center

Media: N/A

Interactivity: Link to different contents of webpage

Item #3

Description: Menu List

Font: Arial 20px

Color: Black, Bold / Underlined

Alignment: Text center / left justified

Media: N/A

Interactivity: Link to specific food menus

Item #4

Description: Menu List

Font: Arial 20px

Color: Black, Bold

Alignment: Text center, content container

Media: Food images

Interactivity: N/A

Item #5

Description: Footer

Font: Arial 20px

Color: Black / Bold

Alignment: Text center, content center

Media: Social Media Logo Images

Interactivity: Link to social media

For overall webpage colors, a light monochromatic color scheme can be used to avoid eye strain and clashing color patterns. For example, a light orange color (#f2be8d) can be used for the body which is easy for the eyes. Using limited amounts of colors (1-2 different colours) helps reduce the amount of color clashing providing a more palatable view.
